The Planning Accreditation Board requires this information be posted for the Master of Urban and Regional Planning program.

Student Achievement

We measure student achievement based on our annual student survey at the end of each academic year. This survey asks students to report the degree to which the program provided them a solid start on acquiring the basic knowledge, skills, and values included in the 18 educational components of planning education as defined by the Planning Accreditation Board.

- Based on responses to annual student surveys (2018-2021), students gave the program a median grade of A- when asked, "Looking back over your time in the program, how well overall were your expectations met?" (both years), which demonstrates MURP students have a high level of satisfaction with the program overall.
- For each of the 18 areas related to core knowledge, skills, and values of the profession, the median grade given by students was a B or above.

Additionally, more than 70 MURP students were recognized in the 2014-2020 period by national, regional, and campus awards, scholarships, and fellowships for academic achievements, including awards from: The American Planning Association, the Association of Environmental Professionals, the California Planning Foundation, Caltrans, and the Randal Lewis Health Policy Foundation.

Seventy-nine percent of graduates indicated that they were "Very Satisfied" or "Somewhat Satisfied" with how the program prepared them for the first two years of their careers (2020 Alumni Survey).
