

Public Information

The Planning Accreditation Board requires this information be posted for the Master of Urban and Regional Planning program.

Student Achievement

We measure student achievement based on our annual student survey at the end of each academic year. This survey asks students to report the degree to which the program provided them a solid start on acquiring the basic knowledge, skills, and values included in the 18 educational components of planning education as defined by the Planning Accreditation Board.

Based on responses to annual student surveys (2018-2021), students gave the program a median grade of A- when asked, "Looking back over your time in the program, how well overall were your expectations met?" (both years), which demonstrates MURP students have a high level of satisfaction with the program overall.

Additionally, more than 80 MURP students were recognized in the 2014-2022 period by national, regional, and campus awards, scholarships, and fellowships for academic achievements. Students were awarded by the American Planning Association, the Association of Environmental Professionals, the California Planning Foundation, Caltrans, Southern California Association of Governments, and the Urban Land Institute/Randal Lewis Health Policy Foundation.

2022-2023 Tuition and Fees*

In State Residents, per full-time academic year	\$20,133.99
Out of State Residents, per full-time academic year	\$32,378.99

*Does not include Student Health Insurance

Student Retention Rate

Percentage of students who began studies in fall 2021 and continued into fall 2022	97%
--	-----

Student Graduation Rate

Percentage of students graduating within 4 years, entering class of 2018	100%
Percentage of students graduating within 6 years, entering class of 2016 (for accredited undergrad)	100%

Number of Degrees Awarded

Number of degrees awarded for 2021-2022 Academic Year	29
---	----

AICP Certification

Percentage of master's graduates taking the AICP exam within 5 years who pass, graduating class of 2018	100%
---	------

Employment

Percentage of full-time graduates obtaining professional planning, planning-related, or other positions within 12 months of graduation, graduating class of 2021	95%
(Percentage based on 23 graduates, of whom 22 obtained professional planning, planning-related, or other positions within 12 months of graduation. One graduate pursued further education within 12 months of graduation. There was no data available for 10 graduates)
